ESD Campus Asia Pacific 2023

Course Information:

ESD Campus Asia Pacific Program I:

This course provides the latest knowledge regarding Education for Sustainable Development (ESD) and considers what is required for current educational attempt to confront the world crisis in terms of holistic dialogues with the participants from each country. The topic 2023 will focus on “Addressing the Global Goals via Local and Regional collaborations” . We will think about “sustainable community design” through lectures, group work, and visits to the Ecovillage in Yoichi.

ESD Camus Asia Pacific Program II:

This course provides the program of 'Global Education for Sustainable Development Initiatives' and has an aim to produce global ESD-leaders to pursue educational efforts to confront the world crisis through holistic dialogues with participants from each country. The 2023 program will focus on SDG target 4.7: By 2030 we have to “ensure that all learners acquire the knowledge and skills needed to promote sustainable development, including, among others, through education for sustainable development and sustainable lifestyles, human rights, gender equality, promotion of a culture of peace and non-violence, global citizenship and appreciation of cultural diversity and of culture's contribution to sustainable development.”
